

5th Annual Water Quality Boat Cruise

Sunday, August 4th from 2-4pm

Come cruise with us on the Maumee River!

Partners for Clean Streams, the Maumee Area of Concern Advisory Committee (MAAC), and Lucas Soil and Water Conservation District, supported by a grant from Ohio EPA & US EPA GLRI, will be hosting an educational water quality boat cruise aboard the Sandpiper. We will have experts on deck to discuss various issues affecting our waterways in the Toledo area and what is being done to address them. This is a special opportunity to see the sights of downtown Toledo from the water and learn about regional water quality.

The Sandpiper launches from Jefferson St. Dock in Promenade Park. **Registration is required & can be done online at:** <https://bit.ly/2XVTeBp>

Information shared by the speakers at this event is not to be considered the opinion of Ohio EPA or US EPA.
